Ashton is an energetic and driven sales professional who has been honing his skills for the last seven years. He has a record of consistently surpassing all sales goals and expectations as well as building, motivating and managing productive sales teams.

Ashton's main role with the company is selling corporate safety consulting services or professional training services to potential customers. He is able to provide guidance to clients on issues pertaining to employee safety and health.

By collaborating with the UASC team, Ashton is able to determine the best services and training recommendations and create and present solutions to meet customer needs.

Ashton is an active listener and knows that getting to know his customers and building their trust is the key to helping them reach their business objectives. His goal is to cultivate long-term, mutually beneficial professional relationships with clients and business partners.

He is excited about assisting our customers identify and solve their problems and advising them about the benefits of workplace safety. His tireless work ethic and professional, easy-going demeanor are an asset to our safety consulting team.
