Tori is a safety professional who has worked as a Safety Project Manager and Safety Officer at a large Safety Management company. While in this role, Tori's responsibilities included:

- Developing safety initiatives appropriate for the project
- Conducting daily safety inspection of active work sites
- Preparing general construction safety plan, including site specific requirements
- Supporting project team in providing visible leadership on site
- Validating subcontractor safety plans & JHA's
- Designing & reviewing risk management of onsite tasks
- Carrying out weekly toolbox talks, Morning Stretch & flex, and safety briefing site wide
- Participating in emergency simulations & accident prevention programs
- Developing emergency procedures

In her role as Health and Safety Consultant, Tori assists our clients with site-specific health and safety program development, safety and health inspections, and conducting site safety auditing and safety management services for large commercial projects.
