Daniel is a safety professional who graduated from Keene State College with a degree in Occupational Safety and Health and Applied Sciences.

Daniel has demonstrated success in leading all aspects of a reliable and functional occupational safety and health policy in a variety of industries. Capable of improving and facility up-to-date revision processes to overhaul and monitor workplace policies up to local and federal standards. He is skilled in aligning management goals with compliance for continuous compliance monitoring and improvement of operations within any industry.

In his previous role as Safety Coordinator, Daniel oversaw a wide range of operational functions in regards to operational safety and health for employees including the development of systems for managing operational protocols. He also worked directly with safety manager to revamp and revitalize work place policies to new OSHA safety regulations.

In his current role as Health and Safety Consultant, Daniel assists our clients with site-specific health and safety program development, safety and health inspections, and conducting site safety auditing and safety management services for large commercial projects.
