

OSHA SAFETY TRAINING FOR MUNICIPALITY WORKERS

Training Packages for OSHA training requirements specific to Public Works and Water and Sewer Departments as outlined by the Massachusetts Department of Labor Standards (DLS)

United Alliance Services' Municipality Workers Safety Training Package Benefits:

- Our trainings address the OSHA training requirements specific to each municipality department.
- The training standards help municipalities perform jobs safely – reducing worker comp, medical leave times, and injuries on the job.
- You choose up to six electives that best suits your team members.
- We maintain copies of all trainings, so if your system is compromised, we have a backup.
- We'll notify you when refreshers need to be renewed, so it's one less thing to fall through the cracks.
- We have developed the training programs, which is our area of expertise, to allow you to focus on your area of expertise – running an efficient department.

The Safety Training for Municipality Workers safety training packages include three days of training, totaling up to 24 hours of training. The first two days are selected topics to comply with the new Massachusetts' DLS laws, which are applicable to all departments. The third day was created as an "elective" day so departments can choose the topic area that best fits within their department to comply with the DLS laws.

PRICING

TRAINING PACKAGE	MAX 24 HRS OVER THREE DAYS	\$6,999.00 (up to 40 participants)*
------------------	----------------------------	-------------------------------------

*If you have more than 40 employees and want just one training session, please add \$15.00 per person. Please note that some Day 3 Elective topics are capped at 12 participants due to other regulation requirements. This price does not reflect travel costs to Western Massachusetts. Certificates can be issued for \$5.00 per certificate.

Day 3 is a full day of training with up to 6 elective topics. Topics vary in length, so you can choose the most relevant topics for your team members. Departments can pick from the list below, totaling up to 6 hours of training time for the day.

Day 3 Electives	
1 Hour topics	3 Hour topics (12 Employee Max)
Confined Space	First Aid
Lawnmower	CPR / AED
Chainsaw	Aerial Lift
Work Zone Safety	Confined Space Entry
Bloodborne Pathogens	Forklift
Snow blower	Trench Safety
Fire Extinguisher	Backhoe and Excavator
Reasonable Suspicion (Supervisors)	Scaffolding
Asbestos	Scissor Lift
Stress Management	Accident Investigation
OSHA Recordkeeping	Fundamentals of Safety Leadership
Sprains and Strains	Basic Workplace Violence
Mold Awareness	Harassment Prevention
Laboratory Safety	Overhead Hoist
Behavior based safety	Excavation Hazard Awareness
Silica Awareness	Basic Rigger & Signaling

Please note that some of the trainings above also include a practical portion to remain in compliance with OSHA regulations. Due to the time constraints of this package offer, those practicals are not included. Should you want a UASC instructor to conduct the practical portion, please reach out for pricing – mention the municipality package to receive special pricing.
