Prior to joining United Alliance Services, Gerard spent over 17 years as the Director of Safety and Training Coordinator for a large plastics manufacturing company overseeing production operations, vendor/supplier operations and contractor activities. He was responsible for implementing and managing the company's entire safety program and compliance training operations for up to 700 employees. Gerry is a dedicated educator who understands the need for extensive and informative training for management personnel and operational personnel.

Gerard provides site safety auditing and safety management services for our clients as well as health and safety plan development and safety and compliance training. His ability to lead and foster an appreciation for safety in teams has improved safety for our clients and lowered their insurance costs and reduced injuries and time away from work.

As a certified OSHA Outreach instructor, Gerard is able to share his own experience as it relates to the training materials, which gives participants insight as to how they can apply what they are learning to their own jobs.

Gerard is a highly motivated self-starter with a tireless drive and energy. He leads by example with a sound professional attitude, strong work ethic, and pride in personal performance. As a strong communicator with effective interpersonal skills, Gerard is able to build great rapport with individuals in the work process, and provide a sense of commitment and contribution to the overall success of team objectives.

His work ethic and professional, easy-going demeanor are an asset to our safety consulting team.
