Mark is a certified Associate Safety Professional with over 25 years of experience as a safety professional in the field. He is a leader who exudes energy and professionalism and prides himself on effective communication and team building. He brings his tireless work ethic and occupational health and safety expertise to each UASC client he works with.

Mark is a US Navy Veteran who got his start at the Naval Air Station in Weymouth, MA. Over the years, Mark's experience has included working in the energy industry as a safety professional at nuclear power plants and various power stations. He also attended the Massachusetts Fire Academy and became a certified Firefighter and EMT. In fact, Mark served as a Firefighter and EMT for the Town of Bourne, MA for 19 years.

No stranger to large operations, Mark has been responsible for safety programming and auditing at job sites with up to 800 employees and 150 acres. Mark employs his excellent organizational and communication skills to manage the safety of such large sites. He is able to handle high-stress and dynamic situations like the seasoned professional he is.

As a certified OSHA Outreach instructor, Mark's real-world experience brings the subject matter to life. He is able to share his own stories as it relates to the material, giving participants insight as to how they can apply what they are learning to their own jobs. Mark is also certified to teach the American Heart Association's Basic Life Support, and HeartSaver CPR courses, and can teach a number of other occupational health and safety courses.

In addition to teaching OSHA Outreach courses for both construction and general industry, Mark assists our clients with site-specific health and safety program development, safety and health inspections, and conducting site safety auditing and safety management services for large commercial projects.
