PROFESSIONAL AFFILIATIONS

American Society of Safety Engineers

National Fire Protection Association

VETERAN

United States Coast Guard

William served for 30 years as a member of the Boston Fire Department, retiring with the rank of Lieutenant in 2015. During that time, he also worked for 12 years as a Safety Director and Consultant in the electrical field. In addition, he proudly served in the United States Coast Guard.

William is a highly motivated self-starter with a tireless drive and energy who leads by example with a sound professional attitude, strong work ethic, and pride in personal performance. He is able to handle and prioritize multiple projects and meet deadlines under pressure.

His safety management experience includes the development and implementation of the construction and electrical safety program for New England's largest electrical and telecommunications subcontractor. Determined safe-work procedures for electrical equipment through coordination study review or system evaluation.

William is a dedicated educator who has taught numerous trainings including NFPA 70E training to supervisors, electricians and HVAC techs as well as outreach training to educate workers, facility managers and client management of the need and benefits for committing to a standard-driven electrical maintenance program

William provides site safety auditing and safety management services for our clients as well as health and safety plan development and safety and compliance training. His ability to lead and foster an appreciation for safety in teams has improved safety for our clients and lowered their insurance costs and reduced injuries and time away from work.

His professional work ethic and his take-charge attitude are an asset to our safety consulting team.
